Education

Sep/2017 – Jul/2021

Bachelor of Engineering in Computer Engineering | Minor in Business

The Hong Kong University of Science and Technology, Hong Kong

Cumulative Grade Average: 3.2 (Upper Second-Class Honors 2:1)

Work Experience

Aug 2021 – Present

Application Developer Analyst | Accenture Technology

Worked for one of top performing technology consulting company to engage in digital transformation and solution implementation to various clients.

- Enrolled in feature development and maintenance of omni-channel messaging platform for a Hong Kong based Global Airline client.

- Back-end: Implemented APIs and database connections with NodeJS.

Feb 2021 – May 2021

Software Developer | Sampson Store (E-Commerce Platform)

- Implemented back-end connectors in Python to connect to Shopify and Shopee APIs.
- Maintained database records in MySQL between internal and data from online stores.

Jun 2020 – Jul 2021

Software Developer Intern | ReUbird (E-Commerce Platform for Events and Parties)

- Implemented backend APIs using Node.js and Express.js.
 - Credit card auto-charging with Stripe, Automated test with Puppeteer, ...
- Implemented database schema in MongoDB.
- Implemented front-end interfaces using ReactJS and React Native.
 - Reusable client feedback surveys, Merchant billing pages, Profile Management ...
- Participated in DevOps (Docker) projects using AWS.
 - Load-testing with Locust, PDF generation service, Auto-testing service, ...
- Cooperated with designers and senior developers in various projects.
 - Billing automation for merchants, Profile management on mobile app.

Jun 2019 – Aug 2019

Software Developer Intern | MySilkWay Limited (E-Commerce Platform)

- Developed a product Q&A portal for an E-Commerce website.
 - Front-end: Designed the comment section and rating system for clients.
 - Back-end: Designed the enquiry management portal for administrators.
 - Database: Designed the structure for questions and ratings with PostgreSQL.
- Experienced the Agile development process via Atlassian JIRA.
 - Designed tasks and sprints for the Q&A portal project.

Activities

Apr 2018 – Apr 2019

Chairperson | The Computer Science and Engineering Students' Society, HKUSTSU

- Took part in Human Resource allocation and Event Planning.
- Collaborated with firms (Maxims, Green Tomato...) on firm visits and seminars.
- Served 300+ members through regular member gatherings and welfare distribution.
- Organized orientation activities for incoming HKUST freshmen.

Skills and Languages
